

VENTANA MEDICAL SYSTEMS RESEARCH & DEVELOPMENT Oro Valley, Arizona

Adams and Associates Engineers has designed the air conditioning, plumbing and fire protection systems for numerous industrial, commercial, manufacturing facilities clean rooms and laboratory facilities. These projects have included both new facilities and the renovation and expansion of existing facilities and have included large chilled water systems, fume hoods, acid neutralization, and make-up air systems. Ventana is the world's leading supplier of automated diagnostic systems to the anatomical pathology market. They were founded in Tucson in the mid-1980s and currently have tissue based cancer diagnostic products in 92 countries!

Adams provided services to the new 182,000 sq. ft. facility including: DI Water System, Kitchen Addition, Fire Protection, Sprinkler Design and Fume Hoods.

Provided HVAC and Plumbing Design Services for the new construction of this research and development facility.
